

THE NEW ZEALAND  
**POPLAR & WILLOW RESEARCH TRUST**

### **Poplars and Willows as Bioengineering Tools**

The New Zealand Poplar and Willow Research Trust is offering national training 2-day workshops for new and experienced practitioners:

When: **Tuesday 11 February - Wednesday 12 February 2025**

Where: Hawke's Bay

**Day 1 - 10.00am -4.30pm**

Classroom style workshop

**Day 2 - 9.00am-3.30pm**

Field trip including drop off at Airport

Cost: \$750.00 - Member Councils will receive a \$250.00 discount.

Presenter: Ian McIvor and Tony Dunlop

### **REGISTRATIONS**

These will remain **open** till **28 January 2025**

To register email Rachael Armstrong - [Rachael.Armstrong@hbrc.govt.nz](mailto:Rachael.Armstrong@hbrc.govt.nz)

### **Workshop Programme**

- Using poplar and willow in bioengineering
- Research supporting the bioengineer
- Role of nurseries to support River Groups
- River engineering in the region
- Tools and resources for the practitioner
- Field visit to river sites
- Sites visits will include the Tutaekuri north bank to the junction with the Mangaone River.

Hawke's Bay will be a good study of the impacts of Gabrielle and resilience of willow and poplar bioengineering.
